

# CONGLOMERATE OBJECTS

Tanya Agui-iga : Michael O'Malley : William Ransom : Cammie Staros : Ryan Taber  
September 12 - October 14, 2016

The Modern Age is a time of scientific and technological progress, yet it is also a time of cultural fragmentation. The objects of the modern world are a conglomeration of different cultures, styles, and materials, brought together to create a new, hybrid form. This exhibition explores the ways in which these disparate elements are merged to create a new, unified whole.
